

Sally Bamber is showing at Cartmel Ground Gallery

"I couldn't be more thrilled to be part of gallery, beautiful gifts for everyone, including work from my single stem series of plants in my new garden, my sketchbooks and greetings cards and two of my books; Flowers at Brantwood 2015 & Herbal Chronicles 2021. There is such a gorgeous selection of beautiful work by wonderful artists to see and love"

Sally Bamber

persicaria

~ 'endurance & resilience'

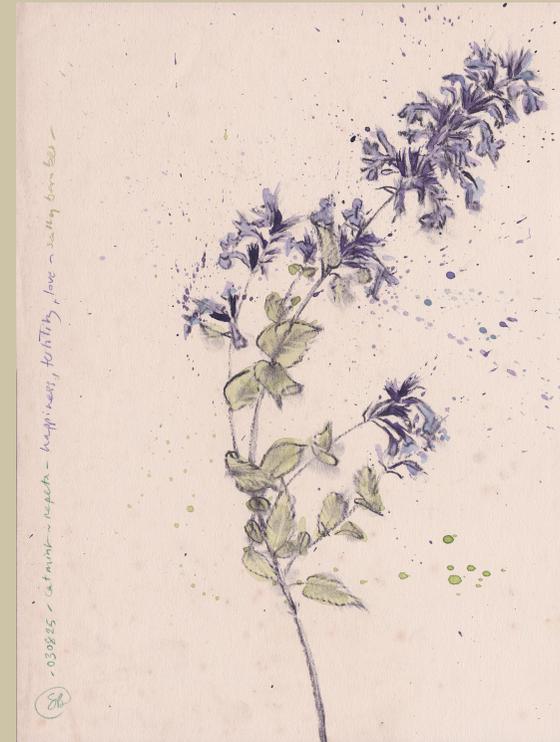

~ I have a wild persicaria growing here as well as some cultivars, I've been pulling the wild ones out, but now think it could be Vietnamese coriander because of the leaf marks! Loving these potential discoveries in my new garden

eryngium / sea holly

~ 'ability to thrive in challenging conditions'

~ a striking and welcome addition to my new garden

catmint / nepeta

~ 'happiness, fertility, love'

~ there's plenty of it in my new garden
